**Subject:** Sending Draft Chromium/Salmon Report

trustl~2.wpd

HNRTC Members:

Today, we are sending out (via Federal Express) the Draft Report, "The Potential for Chromium to Adversely Affect Chinook Salmon (*Oncorhynchus tshawytscha*) Under Exposure Conditions Simulating the Hanford Reach of the Columbia River, Washington, USA." The report should arrive on Monday July 3. Please note in the cover letter that we need you to submit comments by August 4, 2000. The attached file contains the current Trustee members and addresses where the Draft Reports were sent.

A special note to Jamie: we are also sending the "Cost and Performance" report which will bring us up to date through June 30, 2000.

Sincerely,  
Brad
